Events | Art Expo 2017 with Steidel Fine Art

Rodney's work was on display at the Steidel Fine Art booth from April 21 to April 24 at Pier 94, where Art Expo 2017 took place. It was a busy weekend, attracting visitors from all over the world. The Steidel Fine Art booth was located close to the entrance, which was best for catching all the action!

Rodney is looking forward to continuing to work with the wonderful directors of the Steidel Fine Art gallery. Plans for including Rodney's work in upcoming international as well as national exhibitions and art fairs are already in the works! If you haven't yet, please take a look at their website to see the exceptional fine art and services that they offer.

Upcoming | Anderson Ranch

Nestled among the pristine peaks of the Rocky Mountains in Snowmass Village, Colorado, the Anderson Ranch Arts Center campus is comprised of 14 ranch buildings on five beautifully kept acres. For 50 years, the Ranch has been a destination and a welcoming community for art makers and art enthusiasts, providing time and space for artists to create and be inspired.

This July, Rodney will be attending a one-week printmaking workshop at the center. Rodney has previously attended workshops in painting at the Anderson Ranch in 2009 and 2011. His current practice is heavily informed by printmaking techniques, so it will be interesting to see how his work develops after this summer intensive.

Upcoming | Vermont Studio Center

Photo by Maxwell Mackenzie

The Vermont Studio Center was founded by artists in 1984. The center is situated along the banks of the Gihon River in the historic village of Johnson, Vermont, which was chosen with the intention of fostering creativity through community, collaboration, and quiet reflection supported by the unspoiled beauty of the northern Green Mountains.

Over the last 30 years, Vermont Studio Center has grown to become the largest international artists' and writers' residency program in the United States. Their mission is to provide studio residencies in an inclusive, international community, honoring creative work as the communication of spirit through form.

Rodney has been accepted to a 2 week artist residency at the Vermont Studio Center during the month of September 2017. This will be his second independent residency after the American Academy in Rome in 2016, which means the program allows artists to work full time in their studio and develop their current practice. Residencies are awarded to artists who express the need for time and space to continue generating new and innovative work.

Be sure to keep up with Rodney on Instagram this summer to follow along with his progress!
